The Ready Office Collection.

At the heart of Marine Landing, Units 616 and 636 embody a clean, industrial aesthetic designed with today's makers, creatives, and office users in mind. Drawing inspiration from the building's legacy as a former wood mill, the design bridges past and present - combining raw architectural elements with refined, Scandinavian-influenced details.

Expertly designed by Edit Studios, the local interior design team behind Marine Landing, these turnkey office spaces are crafted with your business needs at the forefront. Our Ready Office Collection is designed to streamline your move, eliminating the typical hassles, paperwork, and construction delays associated with setting up a new office. Forget the stress of build-outs and step into a fully prepared, stylish, and functional workspace from day one, allowing you to focus entirely on your business without missing a beat.
